You will have a direct impact on our products and customers while working alongside a passionate and skilled team.

Key Responsibilities

- Support new product development from concept through to production.
- Oversee manufacturing processes and ensure adherence to quality standards.
- Perform engineering calculations and simulations to validate designs.
- Conduct preventive and predictive maintenance planning for plant equipment.
- Liaise with cross-functional teams including electrical and civil engineering.
- Coordinate with procurement for equipment sourcing and vendor evaluation.
- Troubleshoot mechanical failures and implement corrective actions.
- Design and develop mechanical components and systems using CAD software.

Requirements

- Familiarity with ISO 9001 quality management systems.
- Strong analytical and troubleshooting skills.
- 3–6 years of experience in manufacturing, industrial, or HVAC projects.
- Knowledge of thermodynamics, fluid mechanics, and materials science.
- Bachelor's degree in Mechanical Engineering.
- Proficiency in SolidWorks, AutoCAD, or CATIA.

Nice to Have

- Knowledge of lean manufacturing and Six Sigma.
- PMP or engineering professional licence.
- Experience with HVAC or refrigeration systems.

Required Skills

Preventive Maintenance, FEA Simulation, CAD/CAM, Technical Documentation, SolidWorks, ISO 9001, Project Management

What We Offer

- Monthly transportation allowance.
- Monthly team social events and annual company retreat.
- Competitive salary benchmarked to market rates.
- Stock options for senior roles.
- Subsidised meals in the office canteen.
- Paid maternity (90 days) and paternity (7 days) leave above legal minimum.

How to Apply

Send your CV and a short cover letter to **careers@shahidmbc.com** with the subject line "**Mechanical Maintenance Manager – Application**". Only shortlisted candidates will be contacted within 2 weeks.
